Who We Are

Built on Precision, *Trusted by Industry.*

Meridian Industries is a precision manufacturer of engineering components, rooted in Jamnagar — India's undisputed capital of brass manufacturing. Founded on engineering expertise and built over two decades of hands-on manufacturing experience, we supply components that meet the most demanding dimensional and metallurgical specifications in the industry.

Our facility integrates casting, multi-axis CNC turning, VMC milling, hydraulic hot and cold forging, thread rolling and surface finishing under one roof. Every component is inspected against stringent internal quality standards before dispatch.

With two decades of experience, we are a trusted supply partner for OEMs, electrical panel builders, automotive manufacturers, plumbing companies and industrial engineering firms across India. On-time delivery, competitive pricing and consistent quality — not just promises, but the standard we uphold.

18 PRODUCT LINES	15+ YEARS
ISO 9001:2015	Pan INDIA SUPPLY

MATERIALS WE PROCESS

Brass (All Grades)	Stainless Steel	Mild Steel	Aluminium	Copper
Bronze	Rubber & PTFE			

KEY MANUFACTURING CAPABILITIES

CNC Turning Multi-axis, ±0.01mm	VMC Milling 3, 4 & 5 Axis	Casting & Forging In-house Hydraulic
Surface Finishing 6+ Finish Options	Thread Rolling All Intl. Standards	Quality Inspection Final Inspection

COMPLIANCE & CERTIFICATIONS

ISO 9001:2015	RoHS Compliant	REACH Compliant	CMRT Reporting
Make in India	IAF Accredited		

01

BRASS COMPONENT

Brass Fittings & Connectors

Precision brass fittings and connectors for plumbing, gas, pneumatic, hydraulic and industrial fluid systems.

MATERIAL GRADE IS 319 Type I · BS 249 Type I · CW614N · CDA 360 · Custom

PRODUCT TYPES Compression · Pipe · Hose · Flare · Hydraulic · Pneumatic · LPG/Gas · Custom

THREAD STANDARD Any international standard as per customer requirement · Custom thread design available

SIZE RANGE Any size · As per customer drawing and specifications

SURFACE FINISH Natural Brass · Nickel Plated · Tin Plated · Chrome Plated · Custom

MOQ Negotiable · OEM and Custom Orders Welcome

02

BRASS COMPONENT

Brass Forged Parts

In-house hydraulic forged brass components with superior grain structure, mechanical strength and dimensional consistency.

MATERIAL GRADE IS 319 Type I · CW617N Forging Grade · CW614N · DZR Brass CW602N · Custom

PRODUCT TYPES Forged Valve Bodies · Fittings · Flanges · Bushings · Adapters · Pipe Connectors · Custom

THREAD STANDARD Any international standard as per customer requirement · Custom thread design available

SIZE RANGE Any size · As per customer drawing and specifications

SURFACE FINISH Natural · Nickel Plated · Tin Plated · Phosphate Coated · Custom

MOQ Negotiable · OEM and Custom Orders Welcome

03

BRASS COMPONENT

Brass Nuts, Bolts & Fasteners

Complete range of precision brass fasteners — standard DIN/ISO and fully custom designs to buyer drawings.

MATERIAL GRADE IS 319 Type I · CW614N · High Tensile Brass CW721R · Custom

PRODUCT TYPES Hex Bolts · Hex Nuts · Machine Screws · Set Screws · Stud Bolts · Threaded Rods · Anchor Bolts · Custom

THREAD STANDARD Any international standard as per customer requirement · Custom thread design available

SIZE RANGE Any size · As per customer drawing and specifications

SURFACE FINISH Natural Brass · Nickel Plated · Tin Plated · Chrome Plated · Custom

MOQ Negotiable · OEM and Custom Orders Welcome

04

BRASS COMPONENT

Brass Precision Components

High-precision CNC-turned and milled brass components from customer drawings. Complex geometries in a single setup.

MATERIAL GRADE IS 319 Type I · CW614N · CW508L Electrical · CW503L · Custom

PRODUCT TYPES Turned Parts · Milled Parts · Bushings · Shafts · Spindles · Nozzles · Connectors · Housings · Custom

THREAD STANDARD Any international standard as per customer requirement · Custom thread design available

SIZE RANGE Any size · As per customer drawing and specifications

SURFACE FINISH Natural Brass · Nickel Plated · Tin Plated · Chrome Plated · Custom

MOQ Negotiable · OEM and Custom Orders Welcome

05

BRASS COMPONENT

Brass Moulding Inserts

Threaded, knurled, ultrasonic and heat-set brass inserts for embedding into plastic, composite and rubber moulded components.

MATERIAL GRADE IS 319 Type I · BS 249 Type I · High Grade Brass · CDA 360 · Custom

PRODUCT TYPES Threaded · Ultrasonic · Heat-Set · Knurled · Blind · Through · Hexagonal · Round · Square · Custom

THREAD STANDARD Any international standard as per customer requirement · Custom thread design available

SIZE RANGE Any size · As per customer drawing and specifications

SURFACE FINISH Natural Brass · Nickel Plated · Tin Plated · Custom

MOQ Negotiable · OEM and Custom Orders Welcome

06

BRASS COMPONENT

Brass Electrical Terminals

High-conductivity brass electrical terminals and connectors for low and medium voltage electrical assemblies.

MATERIAL GRADE Electrical Grade Brass CW508L · CW503L · IS 319 Type I · Custom

PRODUCT TYPES Crimp Terminals · Ring Terminals · Spade Terminals · Pin Terminals · PCB Terminals · Stud Terminals · Custom

THREAD STANDARD Any international standard as per customer requirement · Custom thread design available

SIZE RANGE Any size · As per customer drawing and specifications

SURFACE FINISH Natural Brass · Tin Plated · Nickel Plated · Silver Plated · Gold Plated · Custom

MOQ Negotiable · OEM and Custom Orders Welcome

07

BRASS COMPONENT

Brass Neutral & Earth Bars

Precision brass neutral links and earth bars for electrical distribution boards, MCB boxes and panel boards. 2-way to 108-way configurations.

MATERIAL GRADE IS 319 Type I · BS 249 Type I · CDA 360 · Custom

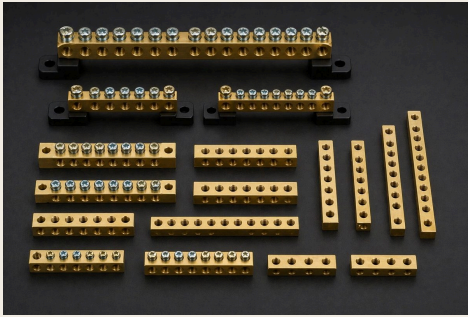

PRODUCT TYPES 2-Way to 108-Way Neutral Links · Earth Bars · Custom configurations

THREAD STANDARD Any international standard as per customer requirement · Custom thread design available

SIZE RANGE Any size · As per customer drawing and specifications

SURFACE FINISH Natural Brass · Nickel Plated · Tin Plated · Powder Coated · Custom

MOQ Negotiable · OEM and Custom Orders Welcome

08

BRASS COMPONENT

Brass Plug Pins & Socket Pins

Brass plug pins and socket pins for domestic, commercial and industrial electrical connectors.

MATERIAL GRADE High Conductivity Brass CW508L · CW503L · IS 319 Type I · Custom

PRODUCT TYPES 2-Pin Plug Pins · 3-Pin Plug Pins · Round Socket Pins · Earth Pins · 5A/6A/13A/15A/16A Sets · Custom

THREAD STANDARD Any international standard as per customer requirement · Custom thread design available

SIZE RANGE Any size · As per customer drawing and specifications

SURFACE FINISH Natural · Nickel Plated · Tin Plated · Silver Plated · Gold Plated · Chrome · Custom

MOQ Negotiable · OEM and Custom Orders Welcome

09

BRASS COMPONENT

Brass Cable Glands & Accessories

Brass cable glands for armoured and unarmoured cables with secure sealed cable entry. Metric, NPT, BSP and PG thread forms.

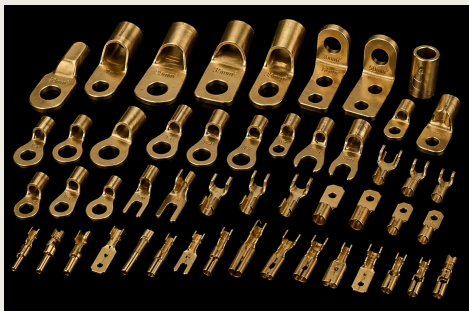

MATERIAL GRADE	IS 319 Type I · CW614N · Custom grade as per requirement
PRODUCT TYPES	Type A Unarmoured · Type B SWA/AWA Armoured · EMC Cable Glands · Custom
THREAD STANDARD	Any international standard as per customer requirement · Custom thread design available
SIZE RANGE	Any size · As per customer drawing and specifications
SURFACE FINISH	Natural Brass · Nickel Plated · Electroless Nickel · Custom
MOQ	Negotiable · OEM and Custom Orders Welcome

10

BRASS COMPONENT

Brass Cable Clamps & Accessories

Brass cable clamps, conduit clamps, grounding connectors, bus bar lugs and cable lugs for electrical cable management.

MATERIAL GRADE	IS 319 Type I · CW614N · Custom grade as per requirement
PRODUCT TYPES	Cable Clamps · Conduit Clamps · EMC Clamps · Grounding Clamps · Bus Bar Lugs · Cable Lugs
SIZE RANGE	Any size · As per customer drawing and specifications
SURFACE FINISH	Natural Brass · Nickel Plated · Chrome Plated · Custom
MOQ	Negotiable · OEM and Custom Orders Welcome

11

BRASS COMPONENT

Brass Ball Valves & Accessories

Precision brass ball valves and accessories for fluid control in plumbing, gas, pneumatic and industrial applications.

MATERIAL GRADE IS 319 Type I · CW617N Forging Grade · CW614N · Custom

PRODUCT TYPES Full Bore Ball Valves · Mini Ball Valves · Angle Valves · Gate Valves · Check Valves · Needle Valves · Custom

THREAD STANDARD Any international standard as per customer requirement · Custom thread design available

SIZE RANGE Any size · As per customer drawing and specifications

SURFACE FINISH Natural Brass · Nickel Plated · Chrome Plated · Custom

MOQ Negotiable · OEM and Custom Orders Welcome

12

STAINLESS STEEL COMPONENT

SS Bolts, Nuts & Screws

High-strength stainless steel fasteners for corrosion-critical environments — SS 303, 304, 316 and 316L grades.

MATERIAL GRADE SS 303 · SS 304 · SS 304L · SS 316 · SS 316L · SS 410 · Custom

PRODUCT TYPES Hex Bolts · Hex Nuts · Socket Head Cap Screws · Set Screws · Stud Bolts · Threaded Rods · Custom

THREAD STANDARD Any international standard as per customer requirement · Custom thread design available

SIZE RANGE Any size · As per customer drawing and specifications

SURFACE FINISH Bright Finish · Passivated · Electropolished · Custom

MOQ Negotiable · OEM and Custom Orders Welcome

13

STAINLESS STEEL COMPONENT

SS Cable Gland & Accessories

Stainless steel cable glands for harsh and corrosive environments with superior IP sealing and chemical resistance.

MATERIAL GRADE SS 303 · SS 304 · SS 316 · SS 316L · Custom grade as per requirement

PRODUCT TYPES Type A Unarmoured · Type B SWA/AWA Armoured · Custom

THREAD STANDARD Any international standard as per customer requirement · Custom thread design available

SIZE RANGE Any size · As per customer drawing and specifications

SURFACE FINISH Bright Passivated · Electropolished · Custom

MOQ Negotiable · OEM and Custom Orders Welcome

14

STAINLESS STEEL COMPONENT

SS Connectors & Fittings

Stainless steel threaded connectors, couplings, nipples and pipe fittings for high-pressure and corrosion-resistant fluid systems.

MATERIAL GRADE SS 303 · SS 304 · SS 316 · SS 316L · Custom

PRODUCT TYPES Couplings · Nipples · Elbows · Tees · Reducers · Unions · Adapters · Hex Connectors · Custom

THREAD STANDARD Any international standard as per customer requirement · Custom thread design available

SIZE RANGE Any size · As per customer drawing and specifications

SURFACE FINISH Bright Passivated · Electropolished · Custom

MOQ Negotiable · OEM and Custom Orders Welcome

15

STAINLESS STEEL COMPONENT

SS Customized Precision Components

Fully custom stainless steel precision components to buyer drawings. Complex geometries and tight tolerances from multi-axis CNC machining.

MATERIAL GRADE SS 303 · SS 304 · SS 316 · SS 316L · SS 310 · SS 410 · Custom

THREAD STANDARD Any international standard as per customer requirement · Custom thread design available

SIZE RANGE Any size · As per customer drawing and specifications

SURFACE FINISH Mirror Polish · Electropolished · Passivated · Bead Blasted · Custom

MOQ Negotiable · OEM and Custom Orders Welcome

16

STAINLESS STEEL COMPONENT

SS Moulding Inserts

Stainless steel moulding inserts and press-fit bushings for thermoplastic and thermoset moulded components requiring superior corrosion resistance.

MATERIAL GRADE SS 303 · SS 304 · SS 316 · SS 316L · Custom

PRODUCT TYPES Straight Knurled · Flanged · Hex · Blind · Heat-Set · Press-Fit · Ultrasonic · Custom

THREAD STANDARD Any international standard as per customer requirement · Custom thread design available

SIZE RANGE Any size · As per customer drawing and specifications

SURFACE FINISH Bright Passivated · Electropolished · Custom

MOQ Negotiable · OEM and Custom Orders Welcome

17

STAINLESS STEEL COMPONENT

SS Plug Pins & Socket Pins

Stainless steel plug pins and socket pins for connectors requiring superior corrosion resistance in harsh environments.

MATERIAL GRADE SS 303 · SS 304 · SS 316 · SS 316L · Custom

PRODUCT TYPES 2-Pin Plug Pins · 3-Pin Plug Pins · Round Socket Pins · Earth Pins · Industrial Connector Pins · Custom

THREAD STANDARD Any international standard as per customer requirement · Custom thread design available

SIZE RANGE Any size · As per customer drawing and specifications

SURFACE FINISH Bright Passivated · Electropolished · Nickel Plated · Silver Plated · Custom

MOQ Negotiable · OEM and Custom Orders Welcome

18

STAINLESS STEEL COMPONENT

SS Neutral & Earth Bars

Stainless steel neutral links and earth bars for distribution boards requiring corrosion resistance in coastal, marine and chemical environments.

MATERIAL GRADE SS 303 · SS 304 · SS 316 · SS 316L · Custom

PRODUCT TYPES 2-Way to 72-Way Neutral Links · Earth Bars · Custom configurations

THREAD STANDARD Any international standard as per customer requirement · Custom thread design available

SIZE RANGE Any size · As per customer drawing and specifications

SURFACE FINISH Bright Passivated · Electropolished · Custom

MOQ Negotiable · OEM and Custom Orders Welcome
